
Greener Film Making Tips provided by Friends of the Earth

Reuse

- Go Retro** Buy a second hand camera
- Hire not buy** Get access to a wider range of equipment
- Go Retro** Repair well-loved equipment rather than replacing it

Recycle

- Make do** Try to repair an old camera with refurbished parts
- Recycle** Recycle unwanted equipment. Contact the manufacturer
- Freecycle** Help another filmmaker in need with your used equipment

Save Energy

- Go Natural** Only use natural light
- Max Power** Fully charge your batteries. Use them until there completely flat
- Stand By** Don't leave equipment running while you're on a break

Travel

- Stay local** Make the best of your local area
 - Out and About** If practical, use public transportation to get to video shoots
 - Short Cuts** Plan the shortest route
-
